

## Outdoor Concert Protocols

These protocols are intended to protect everyone's health, while enjoying our concert events. Thank you for your cooperation in adhering to the guidelines.

Please do not attend the concert if you are exhibiting symptoms of COVID-19 (fever, cough, sneezing, shortness of breath, loss of smell)

Attend at your own risk. We will have cleaning and social distancing protocols in place to protect everyone, but these do not guarantee that you will not be exposed to COVID-19. If you are in the high-risk categories defined by the Centers for Disease Control (CDC), we strongly request that you do not attempt in-person attendance. The following is taken directly from the CDC website ([www.cdc.gov](http://www.cdc.gov)):

Based on what we know, those at high risk for severe illness from COVID-19 are:

- People 65 years and older
- People who live in a nursing home or long-term care facility
- People of all ages with underlying medical conditions, particularly if not well controlled, including: People with chronic lung disease or moderate to severe asthma; people who have serious heart conditions; people who are immunocompromised (including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications); severe obesity (body mass index [BMI] of 40 or higher); people with diabetes; people with chronic kidney disease, undergoing dialysis; people with liver disease.
